UJACOV FAMILY

VINUM estate is a young brand with deep historical roots.

We are a family company with a long tradition in winemaking.

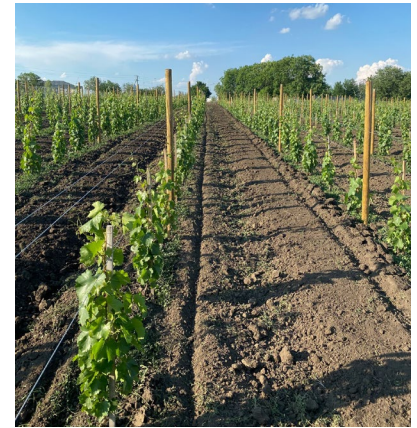

Our history began more than 2 centuries ago, back in 1806. Exact in that year our progenitors, by the will of fate, moved from North-Eastern Bulgaria to the southern Bessarabia.

From father to son, we pass on the knowledge and experience in growing grapes and producing wine.

The modern generation of our family has more than 25 years of experience in winemaking.

In our work we combine the traditions of Moldovan winemaking and knowledge of the best modern world technologies.

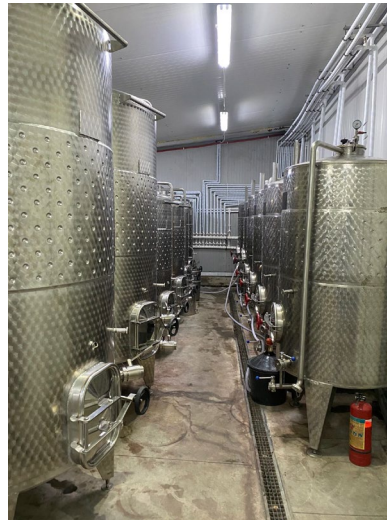

At VINUM estate – we have our own vineyard.

Total at the moment of 4,5 ha. Grape varieties are: Feteasca Regala, Feteasca Neagra, Cabernet Sauvignon, Merlot.
